

ADVT No: CINE/REC/2026/06

Dated: 22/09/2026

WALK-IN INTERVIEW FOR RECRUITMENT FOR VARIOUS POSITIONS (GUWAHATI, ASSAM)

Date: 25th September 2026 to 09th October 2026 (Monday to Friday)

Time: 2 pm to 6 pm

Interview Venue: Centre for Development of Advanced Computing (C-DAC), 5th Floor, IIT Guwahati Research Park, Amingaon, Guwahati, Assam- 781039

Job Location: Guwahati, Assam

Centre for Development of Advanced Computing (C-DAC) is a Scientific Society of the Ministry of Electronics and Information Technology, Government of India. **CDAC Centre in North East (CINE), Guwahati is seeking technical experts to work on Projects of National Importance.** This offers an excellent platform to work in domains such as e-Governance, modern microservices-based applications, Health Informatics, Human Resource and Financial Management systems, among others. We seek bright, result-oriented technical experts for engagement on a purely Contractual Basis for the following positions.

- Project Manager (Software System Architect): Minimum 10 years' Relevant Experience
- Senior Project Engineer(Full Stack Developer): Minimum 4 years' Relevant Experience
- Project Engineer (Full Stack Developer): Minimum 2 years' Relevant Experience
- Senior Project Engineer(Android Developer): Minimum 4 years' Relevant Experience
- Project Engineer(Android Developer): Minimum 4 years' Relevant Experience
- Project Engineer (Network Security): Minimum 1 year's Relevant Experience

Interested and eligible candidates are required to appear for a Walk-in interview as per the schedule below:

Date: 25th September 2026 to 09th October 2026 (Monday to Friday)

Time: 2 pm to 6 pm

Interview Venue: Centre for Development of Advanced Computing (C-DAC), 5th Floor, IIT Guwahati Research Park, Amingaon, Guwahati, Assam- 781039

Job Location: Guwahati, Assam

- Candidates are required to carry the duly filled application form affixed with latest passport size photograph, attested copies of documents such as proof of age, qualification, experience, caste, etc and reach the venue on the stipulated date.

Candidates who reach the venue and register themselves from 10am to 11am will be allowed to attend the interview.

- All the above posts are purely on contract basis on consolidated emolument initially for a period of 01 (ONE) year or co-terminus with the project whichever is earlier. However, term of contract may be considered for extension for a further period based on performance of the incumbent and requirement of the project. However, C-DAC, Centre in North East (Guwahati) reserves the right to terminate the Contract even during the contract period or extended contract period without assigning any reason after giving 45 days prior notice, or salary in lieu thereof. The selected candidates will be eligible to apply for different/higher post, on contract on a consolidated pay basis, against internal notifications issued from time to time. Details of position, qualification, essential experience and eligibility criteria are mentioned below.

Position	Project Manager
Specialization/Domain	Software System Architect
No. of Positions (indicative only)	02
Essential Qualification	B.E/B-Tech. in CSE/ECE/ EEE or in relevant domain(s) with 60% or equivalent CGPA OR M.E/M.Tech/Post Graduate degree in CSE/EEE/ECE or in relevant domain(s) with 60% or equivalent CGPA OR Ph.D. (all but thesis) in relevant discipline
Post Qualification Experience	Minimum 10 years of relevant experience
Required Experience	• Minimum 10 years of relevant experience in system architecture, enterprise application architecture, solution design and implementation of large-scale IT systems • Demonstrated experience in designing secure, scalable, high, availability and high, performance systems enterprise application integration, API/microservices architecture, database and data architecture, cloud/on-premises/hybrid infrastructure, cybersecurity, disaster recovery and system interoperability • Experience in large-scale Government, R&D, e-Governance, enterprise or mission-critical IT projects will be desirable

Required Skill Set	• Proficiency in Java, ReactJS, JavaScript, HTML, CSS, PostgreSQL and Spring Framework • Proficiency in full stack web-application development with latest technologies • Knowledge of underlying infrastructure for Data centric solutions • (Clustered/Distributed Computing, Storage, Networking) • Experience in deployment of large distributed/centralized applications • Expertise in Performance Tuning, Scalability, Design, Build, Test and Deployment • Experience in DevOps processes, tools and implementation
Key Responsibilities	• Responsible for designing and governing the overall system architecture; translating business and functional requirements into scalable and secure technical solutions • Designing application, infrastructure, database, integration and security architecture; evaluating technologies and platforms • Guiding development and implementation teams; ensuring system scalability, performance, availability, interoperability and security • Reviewing HLD/LLD and technical designs • Managing architectural risks and technical dependencies • Supporting cloud/hybrid infrastructure, disaster recovery and cybersecurity requirements • Providing technical leadership throughout development, integration, deployment and post-go-live stabilization
Salary	Rs. 1,00,000/- to Rs. 1,50,000/- per month
Age Limit	Maximum 56 years

Position	Senior Project Engineer
Specialization/Domain	Full Stack Developer
No. of Positions (indicative only)	10
Essential Qualification	B.E/B-Tech. in CSE/ECE/ EEE or in relevant domain(s) with 60% or equivalent CGPA

	OR M.E/M.Tech/Post Graduate degree in CSE/EEE/ECE or in relevant domain(s) with 60% or equivalent CGPA OR Ph.D. (all but thesis) in relevant discipline
Post Qualification Experience	Minimum 4 years of relevant experience
Required Experience	• Experience in e-Governance/enterprise application projects • Proficiency in application development using standard frameworks (Java), database integration, and front-end technologies • Experience in developing workflow-based systems, debugging, performance optimisation • Supporting UAT/production environments is desirable
Required Skill Set	• Java/J2EE • SpringBoot • Hibernate/JPA • Struts 2 • PostgreSQL • ReactJS • JavaScript, HTML5, CSS3 • Rest API Development • Maven/Gradle • Git • Microservices Architecture
Key Responsibilities	• Responsible for end-to-end development and maintenance of web applications, including frontend, backend, API and database components • Developing and integrating REST APIs and third-party services • Implementing secure and responsive applications; performing testing, debugging and performance optimization • Supporting deployment and CI/CD activities; resolving production issues • Maintaining technical documentation; and coordinating with Business Analysts, Architects, QA, DevOps and Project Management teams for timely delivery of quality software solutions.
Salary	Rs. 60,000/- to Rs. 1,00,000/- per month
Age Limit	Maximum 40 years

Position	Project Engineer
Specialization/Domain	Full Stack Developer
No. of Positions (indicative only)	10
Essential Qualification	B.E/B-Tech. in CSE/ECE/ EEE or in relevant domain(s) with 60% or equivalent CGPA OR M.E/M.Tech/Post Graduate degree in CSE/EEE/ECE or in relevant domain(s) with 60% or equivalent CGPA OR Ph.D. (all but thesis) in relevant discipline
Post Qualification Experience	Minimum 2 years of relevant experience
Required Experience	• Experience in e-Governance/enterprise application projects • Proficiency in application development using standard frameworks (Java), database integration, and front-end technologies • Experience in developing workflow-based systems, debugging, performance optimisation • Supporting UAT/production environments is desirable
Required Skill Set	• Java/J2EE • SpringBoot • Hibernate/JPA • Struts 2 • PostgreSQL • ReactJS • JavaScript, HTML5, CSS3 • Rest API Development • Maven/Gradle • Git • Microservices Architecture
Key Responsibilities	• Responsible for end-to-end development and maintenance of web applications, including frontend, backend, API and database components • Developing and integrating REST APIs and third-party services

	- Implementing secure and responsive applications; performing testing, debugging and performance optimization - Supporting deployment and CI/CD activities; resolving production issues - Maintaining technical documentation; and coordinating with Business Analysts, Architects, QA, DevOps and Project Management teams for timely delivery of quality software solutions.
Salary	Rs. 40,000/- to Rs. 60,000/- per month
Age Limit	Maximum 45 years

Position	Senior Project Engineer
Specialization/Domain	Android Developer
No. of Positions (indicative only)	02
Essential Qualification	B.E/B-Tech. in CSE/ECE/ EEE or in relevant domain(s) with 60% or equivalent CGPA OR M.E/M.Tech/Post Graduate degree in CSE/EEE/ECE or in relevant domain(s) with 60% or equivalent CGPA OR Ph.D. (all but thesis) in relevant discipline
Post Qualification Experience	Minimum 4 years of relevant experience
Required Experience	Relevant professional experience in mobile application development, with proven experience in designing, developing, testing, deploying and maintaining mobile applications for Android and/or iOS platforms
Required Skill Set	- Relevant experience in android/mobile application - Development, Implementation and maintenance of projects - Hands-on experience in developing Android and/or iOS applications using Kotlin/Java, Swift/Objective-C, Flutter, React Native or equivalent technologies - Experience in end-to-end mobile application development, responsive UI/UX, REST API/backend integration, database/cloud integration, authentication and security, data synchronization, application testing, performance optimization, deployment through

	Google Play, Store/Apple App Store and production support is required • Experience in Government, e-Governance, enterprise, R&D or mission-critical mobile application projects • will be desirable
Key Responsibilities	• Responsible for end-to-end development, testing, deployment and maintenance of mobile applications; translating functional requirements into technical solutions • Developing responsive and secure mobile interfaces; integrating applications with REST APIs, databases, backend and third-party systems; implementing authentication and security controls • Performing testing and performance optimization • Managing application releases and upgrades; • Troubleshooting production issues • Maintaining technical documentation • Coordinating with Architecture, Backend, QA, DevOps, Cybersecurity and Project Management teams to ensure timely delivery of quality mobile applications
Salary	Rs. 60,000/- to Rs. 1,00,000/- per month
Age Limit	Maximum 40 years

Position	Project Engineer
Specialization/Domain	Android Developer
No. of Positions (indicative only)	02
Essential Qualification	B.E/B-Tech. in CSE/ECE/ EEE or in relevant domain(s) with 60% or equivalent CGPA OR M.E/M.Tech/Post Graduate degree in CSE/EEE/ECE or in relevant domain(s) with 60% or equivalent CGPA OR Ph.D. (all but thesis) in relevant discipline
Post Qualification Experience	Minimum 2 years of relevant experience
Required Experience	• Relevant professional experience in mobile application development, with proven experience in designing, developing, testing, deploying and maintaining mobile applications for Android and/or iOS platforms
Required Skill Set	• Relevant experience in android/mobile application • Development, Implementation and maintenance of projects

	- Hands-on experience in developing Android and/or iOS applications using Kotlin/Java, Swift/Objective-C, Flutter, React Native or equivalent technologies - Experience in end-to-end mobile application development, responsive UI/UX, REST API/backend integration, database/cloud integration, authentication and security, data synchronization, application testing, performance optimization, deployment through Google Play, Store/App Store and production support is required - Experience in Government, e-Governance, enterprise, R&D or mission-critical mobile application projects - will be desirable
Key Responsibilities	- Responsible for end-to-end development, testing, deployment and maintenance of mobile applications; translating functional requirements into technical solutions - Developing responsive and secure mobile interfaces; integrating applications with REST APIs, databases, backend and third-party systems; implementing authentication and security controls - Performing testing and performance optimization - Managing application releases and upgrades; - Troubleshooting production issues - Maintaining technical documentation - Coordinating with Architecture, Backend, QA, DevOps, Cybersecurity and Project Management teams to ensure timely delivery of quality mobile applications
Salary	Rs. 40,000/- to Rs. 60,000/- per month
Age Limit	Maximum 45 years

Position	Project Engineer
Specialization/Domain	Network Security
No. of Positions (indicative only)	01
Essential Qualification	BE/B.Tech or equivalent degree in Computer Science / Information Technology / Electronics & Communication / Electronics / relevant discipline with 60% or equivalent CGPA OR

	Post Graduate Degree in Science / Computer Applications / relevant domain with 60% or equivalent CGPA OR ME/M.Tech or equivalent degree in a relevant discipline with 60% or equivalent CGPA
Post Qualification Experience	Minimum 1 year of relevant experience
Required Experience	• Relevant experience in Network / Network Security / Infrastructure Security
Required Skill Set	• Strong understanding of TCP/IP, routing, switching and enterprise networking concepts • Proficiency in VLAN, VTP, OSPF, BGP, DNS and DHCP • Hands -on knowledge of enterprise routers, switches and network infrastructure • Knowledge of firewall configuration, policy management and network security • Knowledge of network access control and authentication technologies such as RADIUS and TACACS+ • Knowledge of port security, VLAN segmentation and secure network design • Experience with enterprise wireless infrastructure and wireless security • Knowledge of network monitoring and management tools • Knowledge of NetFlow, SNMP, SSH and network troubleshooting tools • Knowledge of SD-WAN and secure WAN connectivity. • Knowledge of network device configuration, software/firmware upgrades, backup and security hardening • Familiarity with Linux and basic scripting/automation will be desirable • Good analytical, troubleshooting and technical documentation skills
Key Responsibilities	• Design, configure, implement and maintain secure enterprise network infrastructure • Configure and manage routers, switches, firewalls, wireless controllers and access points • Implement VLAN segmentation, routing, access-control policies and port-security mechanisms • Configure and manage firewall rules and security policies

	• Implement and maintain centralized authentication and network access-control solutions using RADIUS, TACACS+ and related technologies • Monitor network performance, availability and security events using network-management and monitoring tools • Troubleshoot network connectivity, routing, switching, firewall and wireless issues • Support network-security assessments, configuration reviews and security-hardening activities • Coordinate with ISPs and service providers for connectivity and SLA-related issues • Perform device software/firmware upgrades, configuration backup and restoration • Support incident resolution and network-security implementation activities • Maintain network diagrams, configuration records, operational documents and technical reports • Support implementation of secure network architecture, high availability and business-continuity requirements • Assist in vulnerability remediation and implementation of security recommendations related to network infrastructure • Provide technical support for NOC/SOC-related activities wherever required
Salary	Rs. 40,000/- to Rs. 60,000/- per month
Age Limit	Maximum 45 years

Instruction to Candidates:-

Before appearing for the Walk-in interview, the Candidates should read "General Terms and Conditions" carefully. **Candidate must carry the filled in application form and resume to appear for the interview along with copies of degree and experience certificate. The application form is enclosed.**

General Terms and Conditions

1. Terms of Engagement:

- a. The positions/requirements are purely on a contract basis on consolidated emoluments, initially for up to 1 year or completion of the project, whichever is

earlier. The selected candidates may be assigned to another project based on organizational requirements.

- b. The contract may be considered for extension for a further period based on the employee's performance, requirements, and project duration.
- c. The candidates engaged under this shall be on contract and shall not derive any right or claim to have a regular post/ appointment in C-DAC.
- d. C-DAC is involved in projects at various locations across India, hence a selected candidate may be deputed or transferred from one project to another as per organizational requirement at any project location across India.
- e. The reservations as per Govt. of India norms will be applicable for the positions advertised.

2. Qualification:

- a. For all the posts indicated, the candidates should have qualified from an AICTE/UGC-approved college/Institute or recognized University.
- b. In case any University/Institution or college is following an evaluation system of CGPA/DGPA/OGPA or letter grade, wherever applicable, it is mandatory for the candidate to submit proof of Percentage (%) issued by the university/Institution/College and awarded class along with the degree certificate.

3. Experience:

- a. Candidate possessing relevant post-qualification experience, if sought for, only needs to apply.
- b. Academy/Teaching/Research work, experience in a non-profit organization, and internship/project work placements are part of the academic curriculum and will not be considered as experience unless specified.
- c. Candidate should possess experience certificates/documents issued by the previous and present employer clearly indicating period of employment, salary drawn and post held.
- d. The decision of C-DAC with respect to experience will be final. Work experience indicated without supporting documents will not be considered and is liable to be rejected/canceled without any prior intimation.
- e. The pay bracket provided against each position is for the starting pay for the min. experience required for the said post. Candidates with higher experience

commensurate with the experience bracket given will be offered additional increments as per C-DAC Policy.

- f. C-DAC internal candidates need to complete at least 2 years' service in C-DAC as of date of notification, for applying to positions notified.

4. Selection procedure:

- a. Candidates should meet the eligibility criteria as specified in the advertisement.
- b. There will be an initial screening based on the eligibility criteria mentioned in the advertisement and other parameters declared in the application form submitted at the time of walk-in interview, and only screened-in candidates will be considered for further selection process.
- c. The management reserves the right to increase/alter the minimum eligibility criteria/cut-off limits, in the event that the number of applicants is more, for any post(s), at its discretion. Candidates will be selected on the basis of their academic credentials, experience profile, written test marks (if any), performance in the interview, and such other selection processes/parameters, as adopted and deemed fit by management.
- d. Mere application and fulfillment of the mentioned qualifications etc., does not entitle a candidate to be called for written/skill test/ interview. C-DAC may restrict the number of candidates to be called to participate in the interview/selection process to a reasonable limit, on the basis of qualifications and experience higher than that of the minimum prescribed in the advertisement. The candidates should, therefore, furnish all the qualifications and experience possessed in the relevant field, over and above the minimum qualifications prescribed.
- e. The selection process shall be carried out by the respective C-DAC Centre based on its requirements and only shortlisted candidates will be contacted for further process.
- f. All information submitted in the application will be verified with the original documents at the time of document verification or at any stage of the recruitment process. If any documents/information provided by the candidate is found to be false or incorrect or non-conformity with the eligibility criteria, then his/her candidature is liable to be rejected/cancelled at any stage of the recruitment and selection process without any prior intimation.
- g. The candidature is also liable for rejection at any stage if C-DAC comes across any evidence/knowledge that the qualification, experience and any other particulars

indicated in the application/other forms/formats are not recognized/false misleading and/or amounts to suppression of information/particulars which should have been brought to the notice of C-DAC.

5. Application fees:

No application fee is charged by C-DAC for applying for this walk-in interview.

6. Important Notes:

- a. C-DAC reserves the right to increase or decrease the number of posts or not to recruit against any post notified in this notification at its discretion without any notice/notification.
- b. It is the responsibility of the candidates to assess his/her own eligibility for the post for which he/she is applying in accordance with the advertisement. In case, it is found at any point of time in the future during the process of selection or even after the appointment that the candidate was not eligible as per the prescribed qualification, experience etc, which could not be found at the time of selection due to whatever circumstances, his/her candidature/appointment shall be liable to be canceled/terminated as case may be without giving any notice.
- c. In case of ambiguity/dispute arises on account of interpretation in a version other than English, the English version will prevail.
- d. Candidates are not required to send printouts of the application or any other documents in hard copy to C-DAC.
- e. In the case of internal candidates, please note that the finally selected candidates will have to resign from the current services and join the selected post as fresh employees.
- f. All queries pertaining to recruitment including the selection process should be addressed to our Recruitment Team only through hr-cine@cdac.in
- g. Kindly note that we have not authorized any agent/ agency to represent C-DAC for anything related to recruitment or its processes.
- h. C-DAC reserves the right to cancel or introduce any Personal Interview/Other selection process. C-DAC also reserves the right to cancel/restrict/curtail/enlarge the recruitment process and/or the selection process without any notice and without assigning any reasons.

- i. C-DAC reserves the right to fill/not fill up the post or even to cancel the whole or part of the process of recruitment without assigning any reason thereof.
- j. All the posts will be filled as per the applicable Rules/guidelines of C-DAC.
- k. No TA/DA shall be paid for attending a written examination/ interview.
- l. Canvassing in any form will be a disqualification for selection.
